## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-104 are allowed over the prior art of record.

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art either singularly or in combination. They are a method receiving node information from the user via the user interface in the computing device, the node information including at least node linkage information and node name information; generating, in the computing device, a new node in the node map based on the received user node information; and displaying the new node in the node map on the display component. These features are not found or suggested in the prior art.

The closest prior art Weinberg disclose a conventional mapping component scans a Website over a network connection and builds a site map which graphically depicts the URLs and links of the site; either singularly or in combination, fail to anticipate or render the above underline limitation obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
